## Animal Puzzlers

WHAT IS THIS?

Answer: A Tomato Frog

**ANIMAL FACT**  
 The Tomato Frog is from Madagascar. The female is larger than the male. She can grow as large as a fist. Right now the Tomato Frog is endangered. People started taking too many of them out of the wild for pets. Save the Tomato Frog!

By April M 11 Yrs old

Go to: [www.wildlife-adventures.com](http://www.wildlife-adventures.com) and click on the Hero Day Camps Shield

### WILDLIFE QUIZ

True or False?

1. Frogs breath through their skin.
2. You can tell a boy frog from a girl frog by the size of their ears.
3. Frogs only eat insects.
4. Toads give you warts.
5. Toads are poisonous, but only if you eat one!
